Professional Summary: Creative, detail oriented, collaborative professional building a career around iOS development. An agile learner, well-versed in Objective-C and Swift, who excels in a fast paced team environment and is excited to use the latest technologies and trends to solve real-world problems.

SKILLS

Objective-C ○ Swift ○ Cocoa Touch Frameworks ○ Xcode ○ RESTFul APIs ○ HTML ○ CSS ○ Git / GitHub

PROJECTS

- **mité** is an app that makes browsing images, photos, pictures, and gifs on Reddit.com simple. Leverage unique gestures to vote, share and view images. mité was made in Swift using UIKit, AVFoundation, and ImageIO frameworks. The app communicates heavily with Reddit's RESTFul API.

- **Beat Dat Budget** is a game that was made for The Iron Yard's internal hackathon. Toss consultants, Angry Bird's style, at a budget and see how much "damage" you can do to a project. Beat Dat Budget was made using SpriteKit, UIKit, and a custom Rails API.

- **QPic** is a guessing game where users submit images taken from their camera and players guess what the images could be. QPic was made using UIKit, AFNetworking, AFAmazonS3Manager, Rails API, and is managed with CocoaPods.

TECHNICAL EXPERIENCE

The Iron Yard Academy   Atlanta, GA
Mobile Engineer   May 2015–July 2015
- Developed over 40 apps of varying sizes in Swift and Objective-C that implement the latest technologies, frameworks, and APIs
- Collaborated on small teams that encompassed front-end and back-end to build out responsive apps

Apple   Alpharetta, GA
Genius   Nov. 2011–May 2015
- Supported a large and varying customer base with technical solutions, training, and repairs
- Mentored and trained employees to offer the best customer service while operating efficiently to repair not only customers' issues but also their relationship with Apple
- Acted as interim-Lead Genius through a career experience to develop leadership skills, support customers and coworkers, and maintain scheduling and staffing

RELEVANT WORK EXPERIENCE

Japanese Exchange & Teaching Program (JET)   Niikappu, Japan
English Teacher for Niikappu Town Board of Education   July 2008–July 2011
- Worked as an English teacher for Niikappu Junior High School, Elementary School and Kindergarten
- Assisted Japanese English teachers in developing lessons, tests, and teaching techniques to further English education through team teaching and cultural exchange
